

MATH 65B, Spring 2018 - Syllabus

Calculus II

Instructor: Josh Buli

E-mail: jbuli001@ucr.edu , joshua.buli@chaffey.edu

Website: www.math.ucr.edu/~buli/MATH65B_S18/MATH65B_S18.html

Class Time: Section 97470 - TR - 5:00 - 6:50 pm

Room: Chaffey College, MATH - 114

Textbook: Thomas' Calculus, 13th edition, by Weir and Hass

References: APEX Calculus, V. 3.0, <http://www.apexcalculus.com/>, Calculus, any ed., by James Stewart

Prerequisites: Math 65A or the equivalent. You must have the ability to perform basic operations of single variable differential calculus. It is imperative that you have a good grasp of these prerequisites in order to be successful in the course.

Course Description

From the catalog: Applications of the definite integral including area, volume, arc length, surfaces of revolution, and more. Specifics: We will cover material from chapters 6-8, 10, 11 in *Thomas' Calculus*. Some topics include: volume methods, arc length, areas, work, integration methods, infinite sequences and series, parametric equations, polar coordinates.

Attendance: Attending every class period is very important. Missing classes can severely affect your grade. **If you decide that you wish to drop the class, it is your responsibility to make the drop official and to file the appropriate forms.** However, any absence in the first week may be interpreted as a lack of interest in continuing and result in an administrative withdrawal to make room for those wishing to add.

Student Learning Outcomes:

- Apply techniques of integration to evaluate definite and indefinite integrals.
- Solve applications using integration: area, volume, work, and arc length.
- Analyze infinite series for convergence, derive Taylor series and polynomials of analytic functions.

Homework: The homework is given on the schedule of topics on page 3. You are responsible for knowing how to do all the problems that are assigned. It is a good idea to do *more* problems than what is assigned. Doing a lot of problems that require a different approach will help broaden your skill set. Homework will not be collected, it is for your benefit to do the problems in preparation for exams and groupwork.

Groupwork: There will be 12 groupwork problem sheets over the course of the term. Days when groupwork is assigned, we will spend the whole class period working through practice problems. Students can work in small groups together on the problems without notes, but will be able to ask questions to the instructor when stuck on a problem. Each student must write up their own copy for the solutions to the problems. The groupwork is designed for students to talk out their thought process, and converse with others on how to approach the problems. The problem sets will be graded for correct solutions and completeness. Students **MUST** take the problem sets on the scheduled day, or you will receive a grade of "0".

Exams: There will be (1) midterm and (1) final exam over the course of the semester. You must show **ALL** work on the test questions. Answers without any work will receive no credit. The final exam will be cumulative, but a majority of the final exam will be drawn from the sequences and series material in Chapter 10. All exams will be closed book, closed notes, and no calculators. Test questions will be similar to the problems covered in the homework and on the groupwork problem sheets.

The midterm will be 9 questions, and the final exam will be 11 problems. On the midterm you will be able to choose any 8 problems, and any 10 problems on the final that you wish to be graded. If you choose to do the extra problem, it will be counted as extra credit. **THERE WILL BE NO MAKE-UP EXAMS FOR ANY REASON.** Students who miss an exam due to medical issues, emergencies, etc., with proper documentation will be accommodated. All students **MUST** take the final. **All students are required to take the final exam. Any student who does not take the final exam will receive an overall course grade of an "F".**

Grading

The percentage for the groupwork, midterm, and final will be as follows:

Item	Percentage
Groupwork	25 %
Midterm	25 %
Final	50 %

Regrades for exams: If a student has a grade dispute on any assignment or exam, and wishes to have a regrade, the student must approach the instructor by the end of the class period the exam is returned. Once the student leaves the classroom, there will be **NO** regrading of any assignments or exams.

Important Dates

Groupwork: See Schedule

Add Deadline: 1/22/2018

Midterm: 3/08/2018

Drop w/o 'W' Deadline: 1/28/2018

Final: 5/15/2018

Drop w/ 'W' Deadline: 4/03/2018

From the above chart, the total percentage grade will be calculated. The overall course grade distribution for the course will be the following (Note: The cutoffs above are the highest that will be used. The instructor reserves the right to change this table):

A	B	C	D	F
[90, ∞)	[80,90)	[70,80)	[60,70)	[0, 60)

Additional Policies:

Course Concerns: Students are expected to attend each class meeting, arriving punctually, and remaining the entire time. Students are responsible for getting class notes, schedule changes, and other announcements from their classmates on the days they miss class. **THERE WILL BE NO EXTENSIONS OR MAKE-UPS FOR EXAMS UNDER ANY CIRCUMSTANCES.** If medical or other documented situations arise, alternate arrangements will be made. Students must bring any grading concerns to the attention of the instructor on the same day an exam is returned. Students **SHOULD NOT** be using cell phones in class. If a student needs to use the phone, please do so outside the classroom, as to not disrupt other students.

Academic Dishonesty: There will be no tolerance for academic dishonesty infractions. Cheating is not allowed and may result in severe sanctions up to and including expulsion from the College (cf Student handbook). Cheating includes, but is not limited to, using others work as your own, allowing others to use your work, and using outside material on homeworks or exam. The instructor reserves the right to discipline any student for academic dishonesty, in accordance with the general rules and regulations of the college. Disciplinary action may include the lowering of grades and/or the issuance of a failing grade for an exam or an assignment.

Disability Programs and Services: If you have a disability documented by a physician or other appropriate professional and wish to discuss academic accommodations, please contact the DPS office as soon as possible. Please be sure to allow adequate time to arrange an appropriate accommodation. DPS serves students with physical, learning, and psychological/psychiatric disabilities by providing accommodations based on the type of disability and verifying documentation. Services include academic counseling, disability related counseling and referral for community resources, test accommodations, tram services, adapted computer lab, assistive technology training, assessment, and equipment loan. For more information please contact the DPS general phone line at (909) 652-6379.

Other Services: Other services provided by Chaffey College include the Success Center, EOPS and CARE, Student Health Services, Honors Program, Veterans' Resource Center, Career Center, and Transfer Center. If you wish to know more about these programs, please visit their corresponding websites for more information.

MATH 65B Schedule (Tentative) and Homework Practice Problems

Section	Date	Homework
5.X	1/09	11-66
7.5	1/09	7-66 (even or odd)
7.6	1/11	21, 27, 31-34, 43-46, 67-70, 81-84, 91-94, 103, 104
7.7	1/11	1-9, 13-18, 41-46
X.X	1/16	Groupwork on §5.X, §7.5-7.7
8.2	1/18	1-24, 31-36
8.3	1/18	1-32, 33-50 (odd)
X.X	1/23	Groupwork on §8.2, 8.3
8.4	1/25	1-48 (even or odd)
8.5	1/30	9-32 (odd)
X.X	2/01	Groupwork on §8.4, 8.5
8.7	2/06	None ¹
8.8	2/06	1-64 (even or odd)
X.X	2/08	Groupwork on §8.8
6.1	2/13	15, 17, 23, 31, 37, 45, 47
6.2	2/15	1-4, 11, 15, 25, 35, 36
X.X	2/20	Groupwork on §6.1, 6.2
6.3	2/22	1-7, 9, 13-17 (part a only)
6.4	2/27	13-17
6.5	2/27	1-9 (odd)
X.X	3/01	Groupwork on §6.3, 6.4, 6.5
Review	3/06	Midterm Review; §6.1-6.5, 7.5-7.7, 8.2-8.6, 8.8
Midterm	3/08	Midterm 1
XX.X	3/12-3/18	SPRING BREAK - NO CLASS
11.1	3/20	1-15 (even or odd)
11.2	3/20	1-13, 15-20, 25-29 (even or odd in each set)
XX.X	3/22	Groupwork on §11.1, 11.2
11.3	3/27	1-26, 27-40 (even or odd in each set)
11.4	3/27	1-20 (even or odd)
XX.X	3/29	Groupwork on §11.3, 11.4
11.5	4/03	1-21 (even or odd), 29
XX.X	4/05	Groupwork on §11.5
10.1	4/10	27-81 (even or odd) even
10.2	4/10	1-17, 27-37, 41-68 (even or odd in each set)
XX.X	4/12	Groupwork on §10.1, 10.2
XX.X	4/17	FLEX DAY - NO CLASS
10.3	4/19	11-38 (even or odd)
10.4	4/19	1-16, 17-43 (even or odd in each set)
XX.X	4/24	Groupwork on §10.3, 10.4
10.5	4/26	1-16, 17-44 (even or odd in each set)
10.6	4/26	1-41 (even or odd in each set)
XX.X	5/01	Groupwork on §10.5, 10.6
10.7	5/03	1-25
10.8	5/03	11-28 (even or odd)
10.9	5/03	1-9, 11-20, 29
10.10	5/03	1-5, 29, 53, 68
Review	5/10	Final Review §10.1-10.10, 11.1-11.5, (§6-8)
FINAL	5/15	FINAL: 5:00 PM - 7:30 PM

¹time permitting

VERIFICATION OF SYLLABUS RECEIPT AND DISCUSSION

I verify that I have received and reviewed the course syllabus for MATH 65B - Calculus II. Furthermore, the instructor, Josh Buli, has provided opportunities for questions and discussion regarding the syllabus in class. I feel that I have an understanding of the syllabus and content and the class requirements and policies (tentative schedule, homework assignments, grading scale, letter grade definitions, course policies and structure, etc.). By signing this verification, I the student hereby accept all terms to the above course syllabus.
