Walker was very helpful. His notes were clearly planned out. He explained things clearly and was always able to help. He even tried arranging his office hours so that it would fit with our schedule. Walker was an excellent teacher.

- Great TA. Would like to have Chris as a TA for Math 9B!!!

- The instructor's enthusiasm and availability to teach inspired me to take a farther step.

- The instructor thoroughly covered all of the topics in his lecture. Also, if there were any questions regarding the previous lectures or lectures from the other instructor, they were answered in a manner that actually made sense.
