Question # 25: Please comment on how the instructor's teaching helped your learning of the material in this course. Please give serious thought to your comments. Your comments will be studied by the professor after the grade and performance evaluation of your work have been submitted and may be used in changing future offerings of the course. In addition, these comments are placed in the instructor's file and maybe used for purposes of evaluating the instructor's teaching. The information collected will remain anonymous.

- excellent teacher, he is by far one of the best math teachers ive ever had. he made things seem clearer.

- The instructor was always well prepared. He used time effectively presenting essential material for the course. Through this class i was able to find a better understanding of the 9B calculus course.

- The professor greatly simplified material that was usually conveyed in a much more complex and hard to understand fashion. Provided the information that was truly important and necessary to understand the material. Overall great professor.

- I enjoyed this math experience tremendously. I am not a huge fan of math but I must say that I have learned a lot through this class. You make things clear and easy to understand and you are very accessible terms of getting help outside of class. Continue the great work.

- good teacher, much better than professors Clahane and Zuan because he actually cared about how everyone did and offered us all at least 3 hours of extra help every day.

- A good professor and does care about the class. Gives us a chance in improving the midterm which is nice. The concept was extremely hard and so was the homework. It was hard to bring up my grade because the homework was so hard.
