Question #25: Please comment on how the instructor's teaching helped your learning of the material in this course. Please give serious thought to your comments. Your comments will be studied by the professor after the grade and performance evaluation of your work have been submitted and may be used in changing future offerings of the course. In addition, these comments are placed in the instructor's file and maybe used for purposes of evaluating the instructor's teaching. The information collected will remain anonymous.

- very helpful during office hours knows what he's talking about and cares about his students highly recommend him for anyone planning to take Math 10A great professor overall

- Great class.... best math class I've ever taken here at UCR

- very good learning experience to start off my journey through Vector Calculus. Hope for the best for Christopher in the future!

- Overall, I found the instruction to be very clear and understandable. Everything was paced well probable misunderstandings in areas of difficulty were addressed, often preempting confusion from students (maybe only me).

- Chris Walker is a great teacher. I was apprehensive of taking this class because of previous experiences in other math classes, but my experience in this class has totally changed my mind. I have gained a good understanding from his lecture which is much different from my other math classes. Also he was always available and happy to help anyone in the class gain a better understanding of the matter. He is very approachable and nice. I wish I had more teachers like him.
