- Office Hours: Mondays, Wednesdays and Fridays, 11:00-12:00 or by appointment.
- Phone: 951-827-3118 or extension 3118 on campus.
- Email: elizoque@math.ucr.edu

TA's:

- Section 51: Alexander Rowell (alexrowell@math.ucr.edu)
- Section 52: Alexander Rowell (alexrowell@math.ucr.edu)
- Section 53: Dominick Scaletta (scaletta@math.ucr.edu)
- Section 54: Dominick Scaletta (scaletta@math.ucr.edu)

Text: James Stewart, *Single Variable Calculus*, 6th edition.

Tests:

- Midterm: Monday April 25, 2011, during the lecture
- Monday 06-06-2011, 03:00P.M. - 06:00P.M. as scheduled by the Office of the Registrar.

Homework will be assigned after each of the lectures and completed online using WebAssign. Each assignment will be due on Tuesday at Midnight. The homework will count for 10% of the final grade.

You should be registered for one of the discussion sections. You must attend the section for which you are registered. There will be a number of pop-quizzes in the discussion sections. The scores for the quizzes will also count for 10% of the final grade.

You will receive a grade for the midterm and the final exam. A grade of C- means that you have understood enough of the material to continue the course. It does not mean that you reached 70% or any other predetermined percentage. The midterm will give 30% of your final grade, and the final exam will account for the remaining 50%.

If you cannot come to any of the exams, you have to make arrangements within the first two weeks of the course. We will only accept a very few reasons for not attending one of the exams. Those reasons are limited to: religious reasons, interviews for scholarships, and participation in intercollegiate sports. For other legitimate absence (e.g. serious illness), you must provide documentation explaining the absence.

Cheating will be taken very seriously. Every attempt to cheat will give you an automatic "F" for the course. You will not be allowed to drop the course, and your case will be forwarded to the student conduct committee.
