

UC RIVERSIDE - Student Comments of Instructor, Faculty Evaluation Courses - Summer Session 2 2007

Course: MATH 009C Section: 201 - FIRST-YEAR CALCULUS
Instructor: John Gmerek Huerta

Question # 25: Please comment on how the instructor's teaching helped your learning of the material in this course. Please give serious thought to your comments. Your comments will be studied by the professor after the grade and performance evaluation of your work have been submitted and may be used in changing future offerings of the course. In addition, these comments are placed in the instructor's file and maybe used for purposes of evaluating the instructor's teaching. The information collected will remain anonymous

- I really learned form this class because the teacher spent a lot of time with us, the students explaining the material for the class.
- I am more than satisfied with the professors way of teaching the material. I was able to understand him better than the text and his lectures definitely contributed to my learning the material.
- Outstanding teacher. Need more teacher like him.
- Great class, John. I understood every bit of the material, and that's more than I could say for my last 9C professor. Your examples were clear and easy to follow. Thanks for everything.
- Dr. Huerta was a very good instructor. He thoroughly explained the examples and was always available for extra help. I enjoyed the way that he taught because he used previous math knowledge and examples to show how everything applied and worked together to make/ answer this new problem/example.
- Professor Huerta was very clear at explaining the material covered in class. He was also helpful during office hours.
- He was available whenever we needed help and would explain things very clearly whenever there were questions so that we can fully understand what he was doing.
- Greatest Teacher in Math ever!!!!!!!
