- THE BEST TEACHING ASSISTANT I HAVE EVER HAD! I have taken many courses with this TA, and as challenging as they are his explanations make the concepts simpler and easy to understand. He is ALWAYS approachable and eager to help. When you go to office hours and ask questions he doesnt just hurry through the problems just to get you to leave asap, he makes sure you understand the concepts and has you try them yourself to verify. He is the ONLY reason I passed this course. He made my life a lot easier. THANK YOU!!!
- I have had this TA for a linear algebra class as well. His explanations of the material really simplifies the ideas that the class needs. He is not only a genius but and exceptional teacher.
