- just wear ur shoes bro....please i ask on behalf of the entire class for u to stop walking barefoot it is super gross
- For an 8 am summer course, this was a very entertaining course because Mike made it cheerful for all his students. Most if not all of the material was well taught and he provided many examples and practice for his students. The class was also well structured and online was organized. The grading is a little unclear. I went to most of his office hours and it was really helpful and he always asked if we were clear with the material. He really took his time to understand our questions and tried his best to answer them. Also even though I missed a few days of class due to personal issues, the online notes helped a lot. This was a difficult but well taught course and I hope I did well. -zobia qazi
