COMPARING THE CALLIGRAPHIC AND EULER SCRIPT FONTS

The following is a comparison of the two fonts. To use them both in LATEX one must add the initial command

\usepackage[mathscr]{eucal}

and insert

\$mathscr{ letter }

for Euler script letters. The default command for calligraphic letters does not change.

CALLIGRAPHIC LETTERS

\mathcal{A}	${\cal B}$	${\cal C}$	${\mathcal D}$	${\cal E}$	${\cal F}$	${\cal G}$	${\cal H}$	${\mathcal I}$
${\cal J}$	$\mathcal K$	${\cal L}$	$\mathcal M$	$\mathcal N$	$\mathcal O$	${\cal P}$	$\mathcal Q$	${\cal R}$
${\cal S}$	\mathcal{T}	\mathcal{U}	\mathcal{V}	${\mathcal W}$	${\mathcal X}$	\mathcal{Y}	${\mathcal Z}$	

EULER SCRIPT LETTERS

\mathcal{A}	${\mathfrak B}$	G	\mathfrak{D}	3	${\mathfrak F}$	9	$\mathcal H$	$\mathfrak I$
\mathcal{J}	${\mathcal K}$	$\mathcal L$	\mathfrak{M}	\mathcal{N}	O	\mathcal{P}	Q	\mathcal{R}
S	${\mathfrak T}$	\mathfrak{U}	\mathcal{V}	\mathcal{W}	\mathfrak{X}	y	\mathcal{Z}
