

**UPDATED GENERAL INFORMATION — FEBRUARY 6, 2009**

There is a misprint in the statement of Proposition II.3.2 in the notes (this is in the file `geomtrynotes02b.pdf`). The first part of the statement should read as follows:

*If  $D$  lies on the open ray  $(BA$  and  $E$  lies on the open ray  $(BC$ , then [continue as before].*

This correction has been made in the file (`geomtrynotes02b.pdf`).
