UPDATED GENERAL INFORMATION — MARCH 11, 2009

Misprint alert. In the file `update17w09.pdf` there are misprints in a couple of the problems.

Problem (1). Change "$[AB]$" and "(AB)" to "$[AD]$" and "(AD)" respectively.

Problem (6). Change "$|\angle BCD|$" to "$|\angle ACD|$" (the first expression is not meaningful in our setting because the three points are collinear).
