

**UPDATED GENERAL INFORMATION – NOVEMBER 12, 2019**

*The second quiz (still more on this topic)*

The quiz will be similar to the ones given three years ago, which were 7, 8 and 9 in the document <http://math.ucr.edu/~res/math144-2017/quiz3problems.f17.pdf>. All the problems on that page should be viewed as models for potential quiz problems.
