

Still more on the third quiz – March 8, 2020

This is a response to a student question about what to study:

[G]eneral information is contained in the attached files [update files 8 through 11a]. Many of the new problems have several parts and are too complicated for a quiz, but portions of such problems may well appear. For example, in New Problem 6 you might be asked to show how (b) implies (c) , and in New Problem 2 you might be asked to prove (d) .
