

**UPDATED GENERAL INFORMATION — MAY 21, 2015**

**REMINDER.** There will be no class on Friday, May 22. Since the following Monday is a holiday, the next lecture class meeting is Wednesday, May 27. Before the next lecture class, it would be good to go through the exercises for Section V.2 and the file `notes5.2a.pdf` mentioned below.

The material in Section V.1 of the course will not appear on the next quiz or examination, but material from the remaining Sections of Unit V will be included.

A more clearly written proof of Proposition V.2.3 has been posted in the file `notes5.2a.pdf`. The proof given there is the argument which was presented in the lectures.
