

INFORMATION ON FINAL EXAMINATIONS AND GRADES

Final grades have been posted. I am willing to put your final examinations and second written assignments in your mailbox or arrange a time when you can pick them up at my office. If you have questions about the grading of the exams or wish to appeal the grading of problems, it is probably best to take care of this relatively soon.

The Fall 2012 Qualifying Examination for Mathematics 205 is likely to have problems like some of those on the final examination, so I strongly recommend that you let me know how you would like your papers returned to you.

IMPORTANT. The content of the qualifying examinations is defined by the official online syllabi on the Department's website; some topics in these syllabi might not be covered in the courses, and some topics in the courses might not be covered in the examination. Any questions about the limits of examination coverage should be directed to course instructors or the Graduate Committee leadership.
