SOME CORRECTIONS FOR TYPOS

In **http://math.ucr.edu/~res/math205B-2018/exercises4unit5a.pdf**, on page 2, line 5, the first homology group of the complex K is actually free abelian on $n^2 - 1$ generators (one generator in the homology of the grid is killed off when we adjoin a square to the grid).

In **http://math.ucr.edu/~res/math205B-2018/algtop-notes.pdf**, on file page 86 (= text page 84), line -3, the second inequality should be ≤ 1 and not $\geq 1.$
