**Question # 19:** Please comment on how the instructor's teaching helped your learning of the material in this course. Please give serious thought to your comments. Your comments will be studied by the professor after the grade and performance evaluation of your work have been submitted and may be used in changing future offerings of the course. In addition, these comments are placed in the instructor's file and may be used for purposes of evaluating the instructor's teaching. The information collected will remain anonymous.

- Professor Ryan T. is one of the best math teacher I have ever had till now. He is extremely cooperative & believe in better learning & not only grading. He teaches and explained math problems in extremely simplistic & practical manner. His way of teaching is extremely unique & develop lots of interest to solve math problem more efficiently. Professor is always available to help student need to resolve any issues related to course work & schedule. I am very much interested to take courses with Prof. Ryan in future. Thanks once again Prof. Ryan for all the help, support & cooperation. Best Regards Saher Hasan
- Would 100% take him as a teacher again
- Great instructor.
- The instructor provides clear and various examples for the subject, which came in handy when having to complete the homework. He writes really quickly on the white-board, so the lectures go by quick. If you did not get to finish writing down the notes from the lecture, he posts them later onto his website. Therefore, he is organized and knows how to teach the subject well.
