- Very helpful. Stay cool Ryan!
- One of the best TA who spend time to explain homework. Thank you
- Great TA who was very knowledgeable and complimented the instructor well.
- I definitely could not have gotten through this class without Ryan. He is very helpful in an incredibly difficult class. I was very impressed by his expertise of the subject matter, and was very grateful for how he goes out of his way in getting information vital for the students' success. He is very concerned with his students' progress and is very fair in grading a noticeably struggling class (It seems like he knows what its like to be in our shoes). Overall, Ryan is extremely helpful and a perfect TA for this class.
- Ryan was very helpful in this course. He laid down the different elements of problems and always conferred with us what should be done to solve a problem, helping us getting involved and familiar to understanding the material.
- One of the nicest TA's I've ever met. Ryan goes the extra mile in order to accommodate students. He explains at a pace that is easy to follow, and prepares us well for the exams.
