

UC RIVERSIDE - Student Comments of Instructor, Discussion Courses - Winter 2020

Course: MATH 150A Section: 002 - INTERMEDIATE ANALYSIS
Instructor: Ryan Ta

Question # 18: YOUR CONSTRUCTIVE COMMENTS ON YOUR GRADUATE STUDENT INSTRUCTOR'S TEACHING SKILLS ARE EXTREMELY IMPORTANT. PLEASE WRITE YOUR COMMENTS IN THE TEXTBOX BELOW. PLEASE LIMIT YOUR COMMENTS TO 2000 CHARACTERS.

- The TA gave us useful material to understand the material. The subject was incredibly difficult. I do believe the TA put a lot of effort to help us, even though personally it was very difficult even with such help.
- I've had Ryan as Ta several times and every time it has been a splendid experience
- Definitely did know what he was doing and was helpful that he did the homework beforehand so he had a better understanding of what to explain and how to explain it. Providing solution guides to homework was nice as well because it allowed a reference to advise from when needed
- Ryan is one of the main reasons why I was able to do well in this course. He truly helped clarify any confusion we had, and he went above and beyond in making more resources available to us to be able to succeed. His teaching style is very effective and he covers a lot of material in the short amount of time we have in discussion before quizzes.
- Amazing TA who cares for his students. Overall did a stunning job and regularly helped students improve their knowledge of the material. Absolutely nothing negative can be said.
- Very good TA. He will make his own website to help students and also good at explaining course materials. Even though he makes mistakes sometimes, he will apologize and be better. I give it a 9 out of 10.
- Going to miss Ryan! I have a small group of math friends that have had Ryan a few times and he's been with us through it all lol. Thick and thin. Thank you for all you do, and thank you for always going the extra step to ensure a great learning experience for all the students! Keep doing what you're doing
- Awesome TA helped me a lot in this class THANK YOU
