- He is a great TA who is there for the students. If there is a doubt in his work he will go back and fix it. He is honest about his abilities and tries to do his best to help us out. Therefore making it accessible for us to ask questions and is never intimidating to ask a question.
- Ryan was very helpful during discussion. He posted materials online for us, which was extremely helpful. He was always available when students needed him. Overall a good instructor.
- Always ready to help and explain.
- Very good T.A. He knows the material well and he answers students questions very well. I have had him as a T.A for a couple times now and he is very great.
- Always a pleasure with Ryan. He cares so much about his students and does everything he can to help us out. Math150A is normally a difficult class, but Ryan made it a lot more manageable. Truly the best TA that I've ever had.
- This man has the rare quality of empathy that makes taking this difficult course a little bit easier. He understands the material in a way that can be easily digested for us when he explains it and completely gets how it can be interpreted as confusing for us students. His demeanor allows us to ask any questions without the fear of judgement or lack of trust in his ability. He's just an all around good teacher and a great guy.
- A very great and hardworking TA. He tries his best to make the students understand the course materials and is very open to students coming and asking questions.
- Very helpful TA for the most part
